

New opportunities in neuroscience

Join FENS in 2016

The Brain Conferences

The Brain in Focus: new approaches to imaging neurons and neural circuits

17-20 April, Rungstedgaard - North Copenhagen, Denmark

New insights into psychiatric disorders through computational, Biological and developmental approaches

25-28 September, Moltkes Palæ - Copenhagen, Denmark

Meetings

FENS-SfN Summer School

Cellular mechanisms and networks in addiction

29 May - 4 June, Bertinoro, Italy

Training

The CAJAL Advance Neuroscience Training Programme

Behaviour and neural systems

10-31 July, Champalimaud Foundation

Advanced course in computational neuroscience

7-27 August, Champalimaud Foundation

Neuronal cell biology - cytoskeleton and trafficking

10-31 July, Bordeaux Neurocampus

Nutrition and brain functions

19 September – 7 October, Bordeaux Neurocampus

Hippocampus from circuits to cognition

10-31 October, Bordeaux Neurocampus

The CAJAL-ISN course on glial cells in health and disease

27 November – 10 December, Bordeaux Neurocampus

Training
