

Understanding and targeting Alzheimer's Disease The Brain Conferences

5-8 May, Rungstedgaard, North of Copenhagen, Denmark

Speakers

Tau, ApoE and other risk factors

Maria Grazia Spillantini	University of Cambridge, UK
Michel Goedert	MRC Laboratory of Molecular Biology, UK
Lennart Mucke	Gladstone Institutes of Neurological Disease, USA
Tara Spires-Jones	University of Edinburgh, UK
John Hardy	University College London, UK

Prion-like spreading & phase separation

Mathias Jucker	University of Tübingen, Germany
Marc Diamond	UT Southwestern Medical Center, USA
Melanie Meyer-Lühmann	Albert-Ludwigs-Universität Freiburg, Germany
Dorothee Dormann	Ludwig Maximilian University of Munich, Germany

Amyloid generation & mechanisms of toxicity and cell death

Bart De Strooper	VIB-KU Leuven, Belgium
Arthur Konnerth	Technical University of Munich, Germany
Robert Vassar	Northwestern University, USA
Dennis Selkoe	Harvard Medical School, Center for Neurologic Diseases , USA
Adriano Aguzzi	Institute of Neuropathology, University Hospital Zurich, Switzerland
Matthias Mann	Max Planck Institute of Biochemistry, Germany

Neural-Immune Interactions and Glia

Beth Stevens	Harvard Medical School, USA
Christian Haass	LMU Munich & German Center for Neurodegenerative Diseases, Germany
Ido Amit	Weizmann Institute of Science, Israel
Li Gan	Gladstone Institutes of Neurological Disease, UCSF, USA
Maiken Nedergaard	University of Rochester Medical Center/University of Copenhagen, USA/Denmark
Marco Colonna	Washington University in St. Louis, USA
Jonathan Kipnis	University of Virginia School of Medicine, USA

Special topic: The Amyloid cascade hypothesis after almost 30 years of research

Dennis Selkoe	Harvard Medical School, Center for Neurologic Diseases , USA
John Hardy	University College London, UK
