

Infrastructure Voucher Programme Call

Scope

Apply for a voucher to get free access to the Platform's services and engineering/ development support. Each voucher is estimated to provide you with 6-12 months of HBP engineering/development time.

The call is open to non-HBP researchers worldwide, from academic and non-academic organisations, including hospitals, industry and pharma.

Neither the applicants nor the associated groups are currently funded by HBP.

Benefits for voucher winners

Receive tailor-made solutions developed by the HBP Platform engineering teams and advance your research.

Collaborate and exchange with the HBP scientific and technical network (there is travel budget reserved for you).

Lay the ground for longer-term successful partnerships, especially if you are a researcher or an expert from industry or pharma.

Gain visibility as voucher winner via the HBP network and dissemination activities.

Consult the HBP Innovation Team which offers expertise in the crossover area of ICT, neuroscience and the biomedical sector.

Please note

While benefiting from tailor-made developments and solutions, voucher winners do not receive any direct funding from the HBP.

The vouchers fund the work of the HBP Platform engineering teams to implement your feature requests in the HBP Platform Infrastructure.

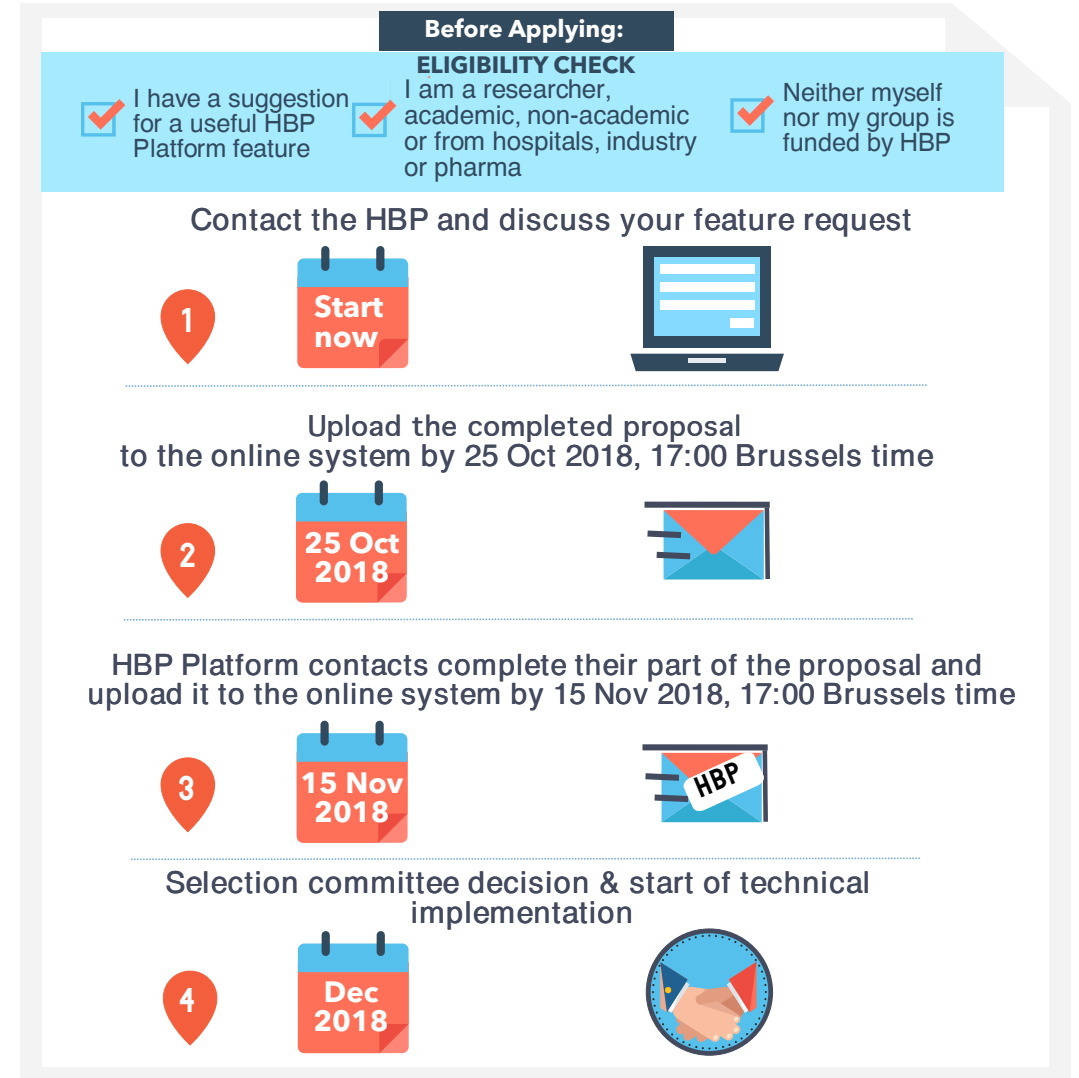

Next steps

Please get in contact with the HBP and discuss your feature request, before the submission deadline. Contacts are provided in the "Guide for Applicants".

Note: Your HBP developer contact will contribute to the proposal after the external submission deadline of 25 Oct of 2018.
