

NEURODEVELOPMENTAL DISORDERS

Mechanisms and pathways to treatment

The Brain Prize Meeting 2021

VIRTUAL CONFERENCE | March 1-4, 2021

With international keynote speakers including the 2020 Brain Prize winners, Huda Zoghbi and Sir Adrian Bird, The Brain Prize meeting aims to bring junior and senior investigators together in a virtual environment to discuss progress and challenges in the field of neurodevelopmental disorder research.

Confirmed speakers are leaders in the field and sessions will cover epigenetics, regulation of gene expression, neuronal and circuit dysfunction, diagnosis, and pathways to treatment of neurodevelopmental disorders. The virtual meeting is free to attend, and all sessions will be live to encourage dialogue and discussion amongst participants. The meeting will close with the announcement of The Brain Prize winners, 2021.

KEYNOTE SPEAKERS
